INTRODUCTION

TO

PROJECT

Introduction

- Mentor is the main person we rely on to give us advice and guidance, especially in are career.
- Mentor is student – centric teacher or friend.
- Mentee is a person being mentored by mentor.
- The partnership between mentor and mentee is known as mentoring.
- Mentors act as a support system for mentees.
- Mentee act as a planner and investigator.
- In mentor mentee diary all those academic activities such as project, seminar , term paper etc. are carried out and timely recorded in detail.
- Such programs are completed by mentees under the guidance of respective mentors.
- In this system , we are going to provide the details as mentioned above.
- The system mainly includes three modules that are Admin, Mentor, and Mentee.
- Admin registers the mentors and mentees. Then mentors are assigned to respective mentees by guide.
- Then mentors and mentees communicate with each other for mentee's academic activities like project, term paper, seminar etc.
- At the time of discussion for any academic activity, mentor accepts or suggests any modification with respect to subject.
- Also at every stage, mentors assign tasks to their mentees and assess their progress and if required, mentors suggest required

changes to mentees. After verse mentees complete and submit their tasks with proper modification to mentors.

- In this way, mentees complete their academic activities under the guidance of mentors.

CONCLUSION

Conclusion

- The project has given us good experience . It taught us that the implementation of concepts in HTML, CSS and PHP. Hence the more knowledge about these languages has acquired in very well manner.
- The system provides the facility to perform academic activities in online manner. So academic activities do not get paused or stopped, the system resumes these activities.
- There is time flexibility so mentors and mentees can manage their working according to their time.
- The system is user friendly and easy to use for users.

LIMITATIONS

Limitations

- Implementation of only one activity has been developed in system that is for submission of project or term paler or seminar .
- Also mentors have to record attendance of respective mentees manually during online meeting.

FUTURE ENHANCEMENT

Future Enhancement

- We will try to implement other activities those take place in academic year.

- As well as we will implement facility for automatic attendance of mentees during online meets.
